

FRIDAY	March 31st		
08:45	09:00	Welcome and introduction	<i>G. Kägi, St. Gallen</i>
		Chair: Ph. Lyrer, Basel	
09:00	09:45	Physical principles of Doppler sonography and color-coded duplex sonography	<i>C. Canova, Chur</i>
09:45	10:30	Extracranial cerebral arteries	<i>P. Lyrer, Basel</i>
10:30	11:00	<i>Break</i>	
11:00	11:45	Grading atherosclerotic carotid stenosis	<i>F. Perren, Geneva</i>
11:45	12:30	Case problem presentation	<i>H. Keller, Zürich</i>
12:30	14:00	<i>Lunch</i>	
		Chair: G. Kägi, St. Gallen	
14:00	14:45	Treatment of extra- and intracranial artery stenosis	<i>L. Bonati, Basel</i>
14:45	15:45	Cases from everyday practice: extracranial arteries	<i>L. Hirt, Lausanne, Th. Bieri, Lucerne</i>
15:45	16:15	<i>Break</i>	
16:15	17:00	Non arteriosclerotic disease of the extracranial cerebral arteries	<i>L. Hirt, Lausanne</i>
17:00	17:45	Steno occlusive disease of cerebral arteries	<i>D. Staub, Basel</i>
SATURDAY	April 1st		
		Chair: G. Kägi, St. Gallen	
09:00	09:45	Transcranial Doppler-/color coded duplex sonography of intracranial vessels	<i>M.L. Mono, Berne</i>
09:45	10:30	Case or problem presentation II: intracranial arteries	<i>G. Kägi, St. Gallen</i>
10:30	11:00	<i>Break</i>	
11:00	11:45	Emboli detection using Doppler ultrasound	<i>R. Sztajzel, Geneva</i>
11:45	12:30	The assessment of cerebrovascular reserve capacity: its significance for treatment decisions	<i>G. Kägi, St. Gallen</i>
12:30	14:00	<i>Lunch</i>	
14:00	17:30	Hands on: extra- and transcranial/transforaminal examination of the extra- and intracranial arteries, cervical veins, and monitoring	<i>Sztajzel, Lyrer, Staub, Keller</i>
17:30	18:00	Debriefing, for course validation, and closing remarks	<i>P. Lyrer, Basel</i>
